## Professional Profile

Analytical, self-taught, and proactive professional. I am looking for an opportunity to improve my knowledge and skills on cloud technologies and DevOps.

I've graduated Computer Network Technology, and post-graduated Network & Telecom. Also, I am MCSA: Windows Server 2016 certified professional.

I have experience working with Windows Server and Linux servers, VMware and Hyper-V virtualization, Firewalls, DHCP, DNS, Proxy, Open VPN, ADDS, WDS, MDT, SQL Server, and MySQL

As a self-taught professional, besides my experiences, I have knowledge about Scrum, Infrastructure as Code, and DevOps mindsets. Also some tools to implement them:

- Code versioning with GIT;
- Pipelines creation in Jenkins and Azure DevOps;
- Docker containers, Private Registry, and orchestration with Docker Swarm (Studying Kubernetes is the next step);
- PowerShell, Shell Script and Python;
- Basic C#;
- Ansible and Puppet as Configuration Manager;
- Nagios and Elastic Stack for monitoring;
- Some services on AWS and virtual machines on Azure and GCP Cloud providers.

## Education

DevOps Engineer Career

Online Course on Alura – Sep 2018 to Oct 2018

Estimated Duration: 130hrs;
